Table of Contents

- 1 **Improvements**..... 3
- 2 **Bug fixes**..... 4
- 3 **Known issues**..... 5
- 4 **QA Information** 6

1 Improvements

- MKV scanner uses the creation file time for dc:date if other values are not found in the metadata
- added device adaptation for OPPO BDP-103
- embedded albumart is extracted from OGG files
- improved performance for toggling the "available for aggregation" setting

2 Bug fixes

- CDS:CreateReference for user created playlists wrongly increased the number of items
- CDS:Destroy Object of non-existing playlist entry did not return an error code
- client-db was not saved to disk when server in sleep mode is shutdown
- container album art for embedded PNG returned converted JPEG
- fixed a bug in bitrate parsing for ALAC files
- fixed an issue with empty user created playlists
- fixed invalid buffer access when parsing JPGs with GPS coordinates
- fixed profile-matching for DLNA MCVT test tool due to changed bitrate-unit
- ituneslib ini parameter was not set on MacOS when ini file was deleted
- original license status is no longer overwritten when entering trial-expired condition
- queue exported playlists could not be uploaded
- renaming a media item was not always recognized by the server (only after explicit rescan)
- rpc/rescan did produce a number of additional threads that are not needed
- some foreign servers had been automatically set to enabled in aggregation servers list

3 Known issues

- LG TV Series 6 does not display video subtitle of a video when advancing automatically to the video in a queue
- audiobooks cannot be aggregated
- duration calculation of MPEG2TS files is not accurate if timeseek generation is disabled
- media item can be duplicated following a change in its metadata
- mp4 thumbnail generation is broken
- UPnP inspector gets confused when Twonky Server provides multiple artist tags with different roles
- error in Mac OS logs for filedb-delete is actually only a warning; operation is not impacted
- occasionally, Twonky license key input results in "invalid key" on Linux systems
- workaround: remove the appdata folder and try again
- thumbnails of some rotated images do not show up correctly in webUI
- sometimes webUI with Opera does not show any thumbnails

4 QA Information

CTT 2.0.3.9

MCVT 3.0.3.8

UCTT 2.0.63

LPTT 2.0.29
